

Tabla periódica de Google Analytics

A principios de este año se empezó en un proyecto para clasificar y mostrar visualmente todas las potentes opciones disponibles en Google Analytics. Después de soñar con varios métodos de visualización, se decidió por una idea que ha funcionado bien en el pasado para otros sectores: la Tabla Periódica de Google Analytics.

Los resultados de este trabajo son tres formas de visualizar Google Analytics en una forma fácil de entender: una tabla periódica interactiva de Google Analytics alojado en Jeffalytics.com. Un gráfico embebido que se puede poner en otros sitios (código de inserción por debajo) y, por último, una versión PDF imprimible de la guía, también disponibles abajo.

PDF para imprimir la Tabla Periódica

La tabla periódica fue diseñado para ser impreso y colocado en las paredes de su oficina, si usted está interesado en imprimir el PDF que usted puede hacer clic en la imagen de abajo.

Insertar la tabla periódica en su sitio

También puede optar por insertar la tabla en su sitio web. Todo lo que necesitas hacer es copiar el código abajo y pegarlo en su sitio!

```
[code lang=»html»]
